TARRANT COUNTY

HISTORICALLY UNDERUTILIZED BUSINESSES (HUB) POLICY

I. POLICY STATEMENT

The Tarrant County Commissioners Court, being the policy development and budgetary control unit of county government, will strive to ensure that all businesses, regardless of size, economic, social or ethnic status have an equal opportunity to participate in Tarrant County's procurement processes. Tarrant County is committed to promote full and equal business opportunity for all businesses to supply the goods and services needed to support the mission and operations of county government, and seeks to encourage the use of certified historically underutilized businesses (HUBs) through the use of race, ethnic and gender neutral means. It is the policy of Tarrant County to involve certified HUBs to the greatest extent feasible in Tarrant County's procurement of goods, equipment, services and construction projects while maintaining competition and quality of work standards. Tarrant County affirms the good faith efforts of firms who recognize and practice similar business standards.

II. DEFINITIONS

Historically underutilized businesses (HUBs), also known as a disadvantaged business enterprise (DBE), are generally business enterprises at least 51% of which is owned and the management and daily business operations are controlled by one or more persons who is/are socially and economically disadvantaged because of his or her identification as a member of certain groups, including women, Black Americans, Mexican Americans, and other Americans of Hispanic origin, Asian Americans and American Indians.

Certified HUBs includes business enterprises that meet the definition of a HUB and who meet the certification requirements of certification agencies recognized by Tarrant County.

Businesses include firms, corporations, sole proprietorships, vendors, suppliers, contractors, subcontractors, professionals and other similar references when referring to a business that provides goods and/or services regardless of the commodity category.

Statutory bid limit refers to the Texas Local Government Code provision that requires competitive bidding for many items valued at greater than $50,000.

III. POLICY GUIDELINES

A. Tarrant County, its contractors, their subcontractors and suppliers, as well as all vendors of goods, equipment and services, shall not discriminate on the basis of race, color, creed, gender, age, religion, national origin, citizenship, mental or physical disability, veteran's status or political affiliation in the award and/or performance of contracts. All entities doing business or anticipating doing business with Tarrant County shall support, encourage and implement affirmative steps toward a common goal of establishing equal opportunity for all citizens and businesses of Tarrant County.

B. Tarrant County will use and recognize the State of Texas certification process in conjunction with the implementation of this policy. Tarrant County does recognize other agencies' certifications. Tarrant County reserves the right to review the certification status of any vendor applying to do business with Tarrant County. This review will be accomplished to determine the validity and authenticity of the vendor's certification as a HUB.

C. The Commissioners Court may establish HUB target goals. Through a systematic approach of soliciting quotes, bids and proposals from certified HUBs and in compliance with applicable state and federal law this policy will strive to meet those goals.

1. Target goals should consider:
   - the availability of HUB firms within the specific category of goods or services to be procured; and
   - the diversity of Tarrant County's population.
2. The goals should be reviewed and amended periodically.
3. The program may apply to all County procurements including construction and professional services.
4. Particular attention will be given to HUB participation on purchases in excess of the statutory bid limit.
5. The Commissioners Court herein establishes a 20% good faith target goal for Tarrant County.

D. Tarrant County will actively seek and encourage HUBs to participate in all facets of the procurement process by:

1. Continuing to increase and monitor a database of certified HUB vendors, professionals and contractors. The database will be expanded to include products, areas of expertise and capabilities of each HUB firm.

2. Continuing to seek new communication links with HUB vendors, professionals, and contractors to involve them in the procurement process.

3. Continuing to advertise bids on Tarrant County's website and in newspapers including newspapers that target socially and economically disadvantaged communities.

4. Continuing to provide bid notifications to minority Chambers of Commerce.

E. As prescribed by law, the purchase of one or more items costing in excess of the statutory bid limit must comply with the competitive bid process. Where possible, those bids will be structured to include and encourage the participation of HUB firms in the procurement process by:

1. Division of proposed requisitions into reasonable lots in keeping with industry standards and competitive bid requirements.

2. Where feasible, assessment of bond and insurance requirements and the designing of such requirements to reasonably permit more than one business to perform the work.

3. Specification of reasonable, realistic delivery schedules consistent with Tarrant County's actual requirements.

4. Specifications, terms, and conditions reflecting Tarrant County's actual requirements are clearly stated, and do not impose unreasonable or unnecessary contract requirements.

F. A HUB Policy statement shall be included in all specifications. Tarrant County will consider the bidder's responsiveness to the HUB Policy in the evaluation of bids and proposals. Failure to demonstrate a good faith effort to comply with Tarrant County's HUB policy may result in a bid or proposal being considered non-responsive to specifications.

G. The Tarrant County Purchasing Department will actively seek the participation of HUB firms in the quotation process for purchases under the statutory bid limit. HUB firms will be identified on the computerized database and linked to the commodities they represent. Buyers will be encouraged to use available internal and external databases of certified HUB firms.

H. Nothing in this policy shall be construed to require Tarrant County to award a contract other than to the lowest responsive bidder meeting specifications as required by law. This policy is narrowly tailored in accordance with applicable law.

IV. ADMINISTRATIVE GUIDELINES

A. The Tarrant County Purchasing Department shall serve as Tarrant County's HUB Office with responsibility for the implementation, monitoring and general operations of the HUB policy. The Purchasing Agent shall serve as Tarrant County HUB Officer.

1. The HUB Officer will establish procedures to implement this policy across the full spectrum of the procurement process. Tarrant County HUB Office will periodically review with department head and elected officials regarding procurement opportunities.

2. Managing the policy and training buyers and other County personnel in order to meet County goals will be the responsibility of the HUB Office.

3. The HUB Office will cooperate with other local government entities to increase HUB participation throughout Tarrant County and region. The HUB Office is encouraged to participate in educational and other outreach programs to assist HUB firms.

4. The HUB Officer will receive and review complaints and recommendations regarding the implementation of the HUB Policy and the good faith efforts of bidders. Further, the HUB Office will audit for compliance to the HUB Policy on eligible projects after award, during the performance of the contract and after completion, while also making any recommendations to Commissioners Court regarding any irregularities or misrepresentation of facts as they relate to compliance with the policy. The HUB Office will review documentation submitted by HUB firms in compliance with this policy.

5. An annual report along with recommendations shall be provided to the Commissioners Court and Purchasing Board. The annual report will provide statistical data and efforts reflected in the number of purchase orders, value of goods and services purchased percentages to HUB firms, and outreach and marketing efforts. Other statistics may be required or requested by the Commissioners Court or Purchasing Board.
