(2) Give name of only one child on each card.

(3) In giving date of birth of child, give the year, month and day and also age. If this information is not given, the name of the child will not be placed on the roll.

(4) Children born on or before September 1, 1901, or after September 1, 1912, must not be enumerated.

(5) Show by proper check whether the child is deaf, blind, or feeble-minded.

(6) It is especially necessary, if the district is in a city, that house and street address be given in all cases where the address is called for.

(7) See that information called for in each blank on this card is given. This card will be a permanent record in the county superintendent's office and must be accurately filled out.

HOW TO PREPARE CONSOLIDATED ROLL (FORM D 79) OF THE DISTRICT FOR THE COUNTY SUPERINTENDENT

In preparing consolidated roll of the district, observe the following instructions:

(1) Divide enumeration cards of the district into two stacks, white and colored, then arrange enumeration cards of each stack in strict alphabetical order of surnames of children. It is advisable that they be alphabetical to the third letter of the surname.

(2) Go through each stack of cards, and take out the enumeration cards for all children who for any reason should not appear on the roll.

(3) After arranging cards as suggested, prepare on form D 79 separate consolidated rolls for white and colored scholastics. This roll must be in strict alphabetical order of surnames of children, and all information called for on form D 79 must be given.

(4) The consolidated roll should be made on a typewriter, if it is possible for you to do so. If a typewriter is not used, then use indelible pencil or pen and ink.

(5) When you have completed the work of placing all names on the consolidated roll, then check each sheet separately to see that the necessary information is given for each name, and that the correct total is entered at the bottom of each sheet.

HOW TO PREPARE FINAL REPORT ON FORM D 77 FOR THE COUNTY SUPERINTENDENT

(1) If more than one enumerator is employed in the district, give the name of each enumerator and the number of children enumerated by each. If the census trustee enumerates all names in the district, he should enter his name as an enumerator, and place opposite his own name the number of children he enumerated.

(2) By using form D 125, you can readily compile the number of children of each age whose names appear on the consolidated roll. Each line on form D 125 will take the totals for one page of the consolidated roll. Form D 125 is only for the convenience of the census trustee in compiling this information and is not to be sent to the county superintendent.

(3) The names of some children may have been enumerated which should not appear on the roll; hence the total marked "Y" may be greater than the total marked "X," but under no conditions can the total marked "X" be greater than the total marked "Y."

HOW TO PROCEED IN CITIES AND DISTRICTS WHERE A CENSUS TRUSTEE AND ALSO ASSISTANT ENUMERATORS ARE EMPLOYED

(1) If more than one enumerator is employed in the district, the census trustee should call the enumerators to his office and explain in detail to them how they are to proceed.

(2) As each enumerator completes his work, he must make oath to the information required on form D 80 before the census trustee.

(3) When the enumeration is completed, the maximum number of scholastics who can legally be counted in the consolidated roll of the district must not exceed the number for which the census trustee has sworn reports of enumeration on form D 80.

(4) When the census trustee makes his report to the county superintendent, he will fill in the names of all enumerators on the report form D 77, showing the number that each enumerated, and he will also attach to this form the original oath of each census enumerator made on form D 80.

(5) The county superintendent will not approve the census roll if the grand total marked "X" on form D 77 is greater than the grand total marked "Y" on form D 77.

THE FORMS OR REPORTS WHICH THE CENSUS TRUSTEE MUST TRANSMIT TO THE COUNTY SUPERINTENDENT

The report of the census trustee to the county superintendent must include each of the following forms properly filled out:

(1) The enumeration cards.

(2) Separate consolidated rolls, form D 79, for white and colored scholastics.

(3) Form D 77 giving a summarized report of the census.

(4) A copy of form D 80 for each enumerator employed must be attached to form D 77.

(5) Form D 127, showing the number of blind, deaf, or feeble-minded children.

Form D 125 is used by the census trustee in compiling the information for form D 77, but form D 125 is not to be transmitted to the county superintendent.

After the census trustee has compiled the reports referred to above, he must then appear in person before the county superintendent and make oath to the report on form D 77.

Your attention to these instructions will guarantee an accurate census of your district.

W. F. DOUGHTY,
State Superintendent.
